For her who has yet to buy her Easter Bonnet, we present a wonderful collection. Graceful models, fitting harbingers for Easter, scores of pleasing shades and combinations, For Friday and Saturday, \$4.95.

So. Boston News

Singers Coming to So. Boston

(Special to The Bee.) SOUTH BOSTON, April 17.—Miss Elsa Letcher of Chicago, who is a booking agent for Piedmont Lyceum Bureau with headquarters at Asheville, N. C., spent Wednesday in South Boston. Miss Letcher booked four entertainments for the city: "The Devoted Male Quartet" and "The Shaw Concert Company," which will be presented at the Princess Theatre some time next fall, the other two numbers which will be presented in the spring of 1925 will be selected later. Miss Letcher booked South Boston for her company last year, one of the numbers being: "The Temple Singer" which those who saw it, pronounced as one of the best ever presented in the city. In an interview with the correspondent for the Register and Bee, Miss Letcher stated that she did a splendid business last year, during which time she booked 103 numbers, and that despite the heavy rain and unusually good every year and that she expects to eclipse last year's record. Solon H. Bryan, of Asheville, manager of the Piedmont Lyceum work, and makes it a point to give his patrons the best entertainments that are obtainable.

Two Held For Theft of Auto

Two young white men, James Wilder, alias Robert Martin and Lloyd McKinney, were arrested at Hyco yesterday morning by Officers Chaney and Wilborn, charged with the theft of a Ford touring car from C. C. Curtis, of Lee Hall, Virginia. W. M. Smith, of Hyco, called Mayor Wilborn over long distance and informed him of the presence of the two men, whom he said were acting in a suspicious manner. Papers found on the men were indicative that they had escaped from Camp Eustice. There is also strong evidence that they had robbed a grocery store a short while before their arrest as they had a sumptuous supper of chewing gum, cigarettes, chewing tobacco, and a pair of socks in the car. They were placed in jail here where they will be held for advice from Camp Eustice. The stolen car is also being held pending the outcome of the investigation.

Officers' Trip Netted 5 Gallons

On Tuesday night, Officers Chaney and Wilborn noted the appearance of two suspicious looking cars on the streets of the city and followed them into the woods, a short distance from South Boston, and properly marked their cars. Henry Glass, thinking they were his brother, Dixon Glass, who had been in Riverside collecting orders for pay water, came out of the bushes and was nabbed by the officers in a few minutes. Dixon Glass accompanied by three negroes who desired to make a few purchases came up and all three of them were arrested. The officers then instituted a search and unearthed five gallons of moonshine near the place where Henry Glass was arrested. The Glass brothers were arraigned before Mayor Wilborn on Wednesday morning and drew fines of \$100 and thirty days.

Tourists Pass Through

Mr. and Mrs. W. A. Jacques of Winchester, Virginia, spent Tuesday night at the Colonial Hotel. They are touring the states of Virginia, North and South Carolina and are on their way back to Winchester. In speaking of business conditions in the three states, they stated that business seemed to be a little quiet in all sections of all of them, but that the people were optimistic as to the outcome and were expecting improved conditions later on in the year. In discussing the roads, they said the roads were better in the state of North Carolina than in the other two states. The roads in Virginia being in worse condition than those in the Carolina. The roads in Virginia, however had been much improved during the past year.

Gigantic Task Faces the P. T. A.

Miss Mary Lemon, Field Secretary for the Parent-Teachers' Association in the State of Virginia, and who has been in Halifax county for the past three days in the interest of the organization, left South Boston, Wednesday evening for the home office at Roanoke. Miss Lemon talked to the Register and Bee correspondent in an enthusiastic way about the organization and some of the things that have been accomplished in the past, also of the gigantic task before them. Miss Lemon accompanied by H. J. Watkins, County Superintendent of schools for Halifax county, drove sixty-five miles from South Boston to the children and parents at four schools, the grammar school in South Boston, Rosa, Republican Grove and North Staunton. A local organization was effected at Rosa, with Rev. G. C. Duncan, of Natlantic as president, S. S. Riddick, of Halifax as vice-president, and Miss Bessie T. Tine, secretary and treasurer. The Republican Grove school expects to organize in the near future. She visited the schools at Virginia on Tuesday of this week. Referring to her work in South Boston, Miss Lemon stated that it was numbered among the best and most active local organizations in the State of Virginia and that if all of the superintendents of schools would become as much interested in the work as Messrs. Watkins and Lucy of this city, it would be a very easy sailing. The association was organized in this state in the month of April, 1921, just three years ago. There are now 186 local units in the state and new organizations are being constantly added to this number. A meeting of the state board of managers of the Virginia branch of the association will be held in Roanoke on April 28-29. Mrs. James S. Easley, of Halifax is a member of the state board of managers.

LEASED WAREHOUSE RENTED

It was announced here yesterday that the Edmundson Warehouse, which has been leased to the Co-ops for a five-year term, season on the Auction Sales System under the direction of Charles M. Loftis and Holl Edmunds, two veteran tobacco warehousemen. There will be no possibility of a fourth being added, run here this season, with two sets of buyers as heretofore, which will enable the patrons of this market to sell their tobacco and return to their homes the same day.

DEATH OF W. M. REESE

W. M. Reese, 54, died at his home at 2223 Ensign Avenue, Richmond, Virginia, at 10:20 p. m. Tuesday evening, April 15. He is survived by a wife, and one son, Dr. C. R. Reese and one sister, Mrs. Thomas Dodson of Natlantic, Virginia. The funeral services were held at Natlantic at 2:00 o'clock this afternoon. Mr. Reese is a former citizen of Halifax county, where he was engaged in the lumber business for a number of years.

PERSONALS

Willie Smith attended the Victor Lightbourne revival services at Brookneal, Tuesday evening. Misses "Light" Jordan and Eva Watkins will attend the dance to be given in the Masonic Temple hall room in Davenport, Friday evening, from 8 to 1 o'clock. Mrs. W. I. Jordan has as her guests Mesdames Julia Robertson and Randolph Meade of Davenport, and Mrs.

Testify There Were No Acts of Misconduct

(Continued From Page One)

Miss Mary Lemon, Field Secretary for the Parent-Teachers' Association in the State of Virginia, and who has been in Halifax county for the past three days in the interest of the organization, left South Boston, Wednesday evening for the home office at Roanoke. Miss Lemon talked to the Register and Bee correspondent in an enthusiastic way about the organization and some of the things that have been accomplished in the past, also of the gigantic task before them. Miss Lemon accompanied by H. J. Watkins, County Superintendent of schools for Halifax county, drove sixty-five miles from South Boston to the children and parents at four schools, the grammar school in South Boston, Rosa, Republican Grove and North Staunton. A local organization was effected at Rosa, with Rev. G. C. Duncan, of Natlantic as president, S. S. Riddick, of Halifax as vice-president, and Miss Bessie T. Tine, secretary and treasurer. The Republican Grove school expects to organize in the near future. She visited the schools at Virginia on Tuesday of this week. Referring to her work in South Boston, Miss Lemon stated that it was numbered among the best and most active local organizations in the State of Virginia and that if all of the superintendents of schools would become as much interested in the work as Messrs. Watkins and Lucy of this city, it would be a very easy sailing. The association was organized in this state in the month of April, 1921, just three years ago. There are now 186 local units in the state and new organizations are being constantly added to this number. A meeting of the state board of managers of the Virginia branch of the association will be held in Roanoke on April 28-29. Mrs. James S. Easley, of Halifax is a member of the state board of managers.

engaged in improper relations.

Before becoming employed by the commissioner, Miss Bell said she had been a school teacher at Toana and had been forced, owing to her illness and the death of her father, to resign. Miss Ruth DeFord, 23, of Norfolk, who Tomlinson testified had improper relations aboard the Maury with "Barrow," also of Norfolk, stated that when Barrow was in her cabin he had just delivered her baggage. He left almost immediately, she said. The witness said she was a telephone operator, adding that she went on the Jamestown trip at the invitation of Barrow, who, she said, she had known about nine years. Miss Harrell, Lee, Barrow and Bailey made this trip, she said, which had been planned to reach Irvington the commissioner's home. "There has been some mention of a pink kimono," counsel for Lee said. "Do you own one?" "I did," she replied. "There was some mention of my having had it on when Mr. Barrow was in my room. That is false. The witness who said they spied on me through a hole in the wall, is false. The witness said she had mentioned this alleged incident to Miss Harrell. She emphatically denied she had been guilty of any misconduct aboard the boat. Mr. Gordon took over the witness. He asked if she still was working for the telephone company. "I don't know whether I am or not," she replied. "Why not?" "I don't know. I was up to this investigation. I don't think I'll go back." "Not go back?" "Do you think any lady would go back and face this," she cried, breaking into tears. Lee arose, stepping to the rear of the room, with the remark: "The dirty scoundrel." Gordon ignored him. Miss DeFord admitted she could not tell who had been looking through the hole in the wall, when closely questioned by Mr. Gordon. The defense developed from her that she was a yeoman during the world war. When she was excused, she rushed for an ante-room, from which she sobbed several minutes later, still sobbing.

HERRING UPSET IN PINEHURST GOLF BY BEATING FAVORITE

(By The Associated Press.) PINEHURST, N. C., April 16.—Donald G. Herring, of the Pine Valley Country Club, Philadelphia, today upset the calculations of experts when, following up his 21 hole victory of yesterday over C. P. Hollingerworth, of Greensboro, Pa., in the mid-April golf tournament now in progress here, he defeated R. A. Stranahan, Toledo, Ohio, four up and three to play. Stranahan had been one of the favorites for the finals, having tied with John D. Chapman of Greensboro, Conn., for medal honors in the qualifying round with a 72. P. S. Randolph, Jr., Point Judith, R. I., went one up on Donald Parson, Youngstown, Ohio, with a birdie two up and one to play. Both were playing better than par golf at this stage. Randolph went two up on the tenth but Parson reduced it one when he took the 11th with a birdie three. Randolph took the 12th but Parson came back on the 15th with a birdie three for the hole after having halved the 14th. Randolph captured the 16th and 17th was halved and a was Randolph's match. The Street Cars lost from \$60 to \$100 per day on the 5c fare, which means twenty to thirty thousand dollars per year. It can't be done! The 6c token fare and 7c cash fare will be restored on Street Cars Wednesday, April 16th.

LOS ANGELES DOES NOT WANT MOVIE STAR TO REPRESENT HER

By ROBERT T. SMALL (Copyright, 1924, by The Bee.) NEW YORK, April 17.—No sooner is the fight for the air settled in one direction than it breaks out in another. The threatened patent suits over broadcasting apparatus have been abandoned because the stations which were to be used agreed to certain royalties or rentals. This settlement has had an unexpected result here in New York. Almost immediately there have come applications for the erection of at least half a dozen additional powerful broadcasting plants. The applications range all the way from the city of New York itself down to a small department store. These applications would seem to themselves to dispose of at least temporarily of the question, "does broadcasting pay?" It certainly must pay in some manner or why would additional concerns be willing to go to the great expense of erecting and maintaining the sending stations? The problem has arisen of providing practical wave lengths for all of the proposed new stations. A representative here of the department of commerce at Washington, which regulates the division of time locus, at least four of the new broadcasting stations to take the same wave length despite the fact that all are to be in the same radio zone. This would mean of course, that the four stations would have to arrange for an exact division of time locus, two of them could operate successfully at the same hour. The suggestion that the city of New York should share a wave length with three other stations has aroused the city fathers. In the first place, they object to such a low wave measure as 315 meters. They want at least 492 and as this happens to be the wave assigned the "telephone trust" there are static howls in all directions. The telephone company says it was virtually first in the field and it thinks it ought to have its own wave length exclusively. The city says it is willing to share 492 on a fifty-fifty basis with the telephone company. The government agent has retorted by asking if the city had the wave first, would it agree to share it with someone else. Theoretically, it would seem there would be plenty of time lengths to go around, even if every station had a different one. Some radio work is carried on up in the fifteen thousands. And there are only about 600 broadcasting stations in the United States. As a matter of fact, however, in the present state of radio development there are only between ten and twelve practicable wave lengths available in each radio zone. This is entirely due to the limited effectiveness of the average receiving set. It is necessary to leave gaps between the broadcasting waves so as to permit of the proper tuning of the receiving set. As the receiving sets grow in perfection the wave length problem will solve itself, but at the moment it is an acute one in the thickly settled sections of the country where the broadcasting stations are likely to be rather than diminish. It would be an easy matter for the department of commerce to solve the problem by assigning different lengths to each station, but the result would be a jumble in the air and despair in the radio audience. It is to protect the audience, the radio public that the

Quickly Drives Out All Rheumatic Poison

The first day you take Rheuma, the doctor's remedy that is selling so rapidly, you realize that when Rheuma goes in uric acid goes out. It matters not whether you are tormented with pain, crippled with swollen joints or distressed with occasional twinges. Rheuma is guaranteed to end your rheumatic trouble or money back. Rheuma is just as effective in cases of lumbago, sciatica, antritis and chronic neuralgia. Rheumatism is a dangerous disease. It often affects the heart, and causes death. If you have it in the slightest degree get a bottle of Rheuma from Patterson Drug Co. or any good druggist today and drive it from your system at once.—adv.

Says His Prescription Has Powerful Influence Over Rheumatism

Mr. James H. Allen, of Rochester, N. Y., suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work. He finally decided after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body. With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system. He freely gave his discovery, which he called Allenbry, to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. He has therefore instructed druggists everywhere to dispense Allenbry with the understanding that if the first pint bottle does not show the way to complete recovery he will gladly return your money without comment. Mr. Allen's Drug Store can supply you.—adv.

Unruly Prisoner Finally Landed

One Ernest Hodce proceeded to tank up on an overdose of white lightning last Tuesday night and he was simply "running wild" when Mayor Wilborn's sleuths picked him up. He did not relish the idea of being relegated to the cooler and defied the whole police department of South Boston to arrest him. When the officers had him safe in the clutches of the law and started to put him away

Presbytery Expects To Finish Today

(Continued From Page One)

The promulgation of his text. About eight-tenths of the Protestants of this country believe in infant baptism, which involves the right of the infants to baptism, and the infant element has a good right to the fellowship of the church.

Christianity began in the councils of eternity, before the world began and in all human history God has made covenants with his people, including the infants. He sketched Jewish history from the Edenic days and the fall of Adam and the laying of Abel and adverted to the various covenants and developed the history of sacrifice from the earliest days of sacrifice down to the sacrifice of Christ, citing the covenants with Abraham, with Noah, the covenant as to the Passover and the covenant at Sinai, and finally the covenant of the Last Supper, which was a memorial. The minister pointed out that God's covenants remained in force until superseded or replaced by a new covenant. Reciting the fact that at the age of 40 days, Jesus was brought to Jerusalem and there sprinkled with the water of separation, Mr. Venable quoted Christ's direction to "Suffer little children to come unto me" and he recalled the baptism of Lydia and her household, and of the Philippian jailer and his.

After a careful resume of scriptural and other facts bearing on the theme and enunciating the doctrine that infant baptism came from Sinai, Mr. Venable quoted a minister who had made a census of convicts in the Missouri penitentiary with the result that it was ascertained not one of the Protestant prisoners in that institution had been baptized in infancy. Another minister had conducted a similar inquiry in the Tennessee prison with his eight hundred convicts with the same result. The speaker deduced from these singular and striking statistics that infant baptism as a covenant of God with his people had peculiarly preserved and protected those who were the beneficiaries of such consecration. He so cited the instance of an old man of more than 90 years of age who had been converted in his extreme age and who when inquiry had been made admitted that he had been baptized in infancy.

The sermon ended, the minister offered prayer and a hymn closed the devotional program for the evening. Thereupon the moderator, Mr. Williams, resumed the chair and the body was soon at order and engaged in calling the order of business.

Rev. T. S. Wilson, D. D., chairman of the ad interim committee on Revision of the Manual of the Presbytery, stated that he thought this has been concluded at a former meeting, but when reminded by the clerk of the procedure in the former consideration of the matter, admitted that he had completely overlooked it. In the call of reports of permanent committees, Rev. A. C. Forrester, of the committee on stewardship, cited his many engrossing duties and asked and was granted more time for this report, which was deferred.

W. E. Harrop read a list of churches from which the ad interim committee reports for the evening were that on Foreign Missions, prepared and read by the Rev. L. P. McCulloch, of Schoolfield. This report was in some measure statistical, and showed the facts and figures compiled were of interest to all as showing the extent of the Presbytery's missionary efforts and the fine response by the churches to appeals for support of the foreign mission work. The receipts of the report shows have broken all records, amounting to \$1,222,150, or more than \$100,000 in excess of the cost of the year's work, and enabling a reduction of the debt by that amount. Serial collections had aggregated \$17,254, and the year's total to \$1,360,116, an increase of \$183,020 over the preceding year. The complete total of funds for the foreign mission cause, including legacies, etc., aggregated \$1,937,112. The report also showed that missionaries had been sent into the field, of whom six had been lost by death. The report concluded with six recommendations, which in condensed form are as follows:

1. That the church societies assume a definite responsibility for a definite share of the work.
2. That mission study classes be organized in all the churches.
3. That all Sunday schools follow the 7-year plan for missionary education.
4. That Christian Endeavor societies use six six missionary programs during the year.
5. That a church school of missions be maintained in each church.

That attention be directed to the fact that all the nine missions are doing a great work and are calling for reinforcement.

Most of the other reports were oral and many were not as definite as they might have been.

On motion for adjournment having been made half an hour before and lost, the Presbytery did adjourn at 10 p. m. on Mr. McCulloch's motion.

WEDNESDAY AFTERNOON SESSION
The Presbytery reassembled in the church body Wednesday afternoon and made further inroads in the program during the course of the afternoon. A recess was taken at 1 o'clock in order to permit the delegates to take a motor trip to Danville Military Institute which is fostered by the Presbyterian church after which the delegates visited Sunnyside Home for elderly ladies, which is another institution sustained by that denomination.

On invitation of the Presbytery Rev. A. D. Watkins made an address on Hampden-Sydney College in which the work of this famous college institution was portrayed. The Presbytery voted later that the Christian Endeavor Committee be requested to make a response to Rev. Mr. Watkins at the next Presbytery meeting.

The next report was that of Rev. W. Maxwell who presented the report of the Home Mission Committee.

Rev. P. J. Murdoch, pastor of the Rock and Roanoke churches then requested the Presbytery to dissolve the national relations existing between

Golden Gint SHAMPOO

him and his churches. He said that after having given the matter prayerful consideration he felt that he should resign. It developed, however, on statements from representatives of the churches that a third church is also involved and that the membership had declined to accept his resignation which precipitated an unusual situation. It was finally decided to refer the entire matter to the Home Missions Committee for a report and recommendation before the Presbytery ends.

The report of a special committee on collection of Presbyterial and Synodical taxes was next given this suggesting a new method of collecting these taxes at one time. It also suggested a new policy in the paying of mileage granting delegates more mileage when they journey in their own cars. This provoked discussion and the Presbytery finally decided to cling to the method of paying each member the amount of his railway fare whether he go by automobile or by train. During the evening the stated clerk, the permanent clerk and the treasurer of the Presbytery were re-elected. Announcement was made of the Laymen's Association meeting to be held in Danville May 1, when C. Russell Caldwell, Dr. Ezekiell, Tom Talbot and Nat Harrison will be speakers.

The Presbytery just before the evening recess was taken elected to hold the Fall stated meeting at Rough Creek church near Phoenix. A committee was appointed to determine the date sometime after the Synod has met on September 15. Rough Creek, it was stated, has not entertained the Presbytery for thirty-five years.

Charges Against Former Officials

WASHINGTON, April 16.—Two former attorney generals of the United States, Mitchell Palmer and Harry M. Daugherty, and one former governor general of the Philippine Islands, Francis Burton Harrison, were accused of serious and personal wrong doing during rapidly shifting testimony today before the Senate Daugherty Investigating Committee.

Only two witnesses were heard, one Gaston B. Means, investigator long active in international and domestic affairs, and the other George W. Storck, accountant for the Department of Justice, but out of the web of their stories were duplicated repeated accusations of misconduct and later of default in Department of Justice prosecutions.

Means took his account of bribe taking by the door of Mr. Daugherty by repeating statements he ascribed to Jess W. Smith, the late companion of the former attorney general. He also confirmed and extended impressions left by Storck, whose testimony was a prolonged report of the investigation made by himself, up to the orders of John W. H. Crim, former assistant attorney general, into the conduct of the alien property office.

In the brisk play of question and answer, means described Mr. Palmer as "looking scared to death" coming out of Mr. Daugherty's office after charges against his administration of alien property had been pushed to the point of mention of indictment.

One moment of the session the committee devoted to Howard Mannington, of Ohio, when its "prosecutor," Senator Wheeler, Democrat, Montana, demanded the production of this witness by Mr. Daugherty's counsel. In spite of his own refusal to appear, he demanded that indictments had been returned in New York against Mannington and Jess Smith for liquor permit transactions, but "hushed up." He was advised by George H. Chamberlain of Mr. Daugherty's counsel to apply to the district attorney for his information.

Two other issues arose during the day, one in the hearing, when Means said William J. Burns chief of the Bureau of Investigation of the Department of Justice, as advising Mr. Daugherty against pressing the Montana indictment against Senator Wheeler. The other developed after the hearing when the Western Union Telegraph Company, by letter to the committee, confirmed its previous verbal refusal to give the committee any more telegrams exchanged between principals in the Senate investigation.

SECRETARY WALLACE IS NAMED IN INJUNCTION

(By The Associated Press.)
WASHINGTON, April 16.—Henry C. Wallace, secretary of agriculture, is named as defendant in a suit for injunction filed today in the district Supreme Court because of the alleged diverting of waters from Shenandoah National Forest in Virginia to non-plantation localities in violation of an agreement to conserve the water supply. The plaintiffs are the Chesapeake Western Railway, the New River Electric Company and the New River Electric, Virginia, which claim they will be damaged by the threatened action of Secretary Wallace.

Through Attorney Raymond Hudson the court is told that the secretary of Agriculture although admitting he has not the right to divert the waters of the North river, a tributary of the Shenandoah river, is about to arrange with third parties to pipe the water to the city of Staunton and to other manufacturing cities. The plaintiffs claim the right to the water is incident to the ownership of their lands and that the proposed action is in violation of their legal rights.

HEADS SUNDAY SCHOOL BOARD

NASHVILLE, Tenn., April 16.—John R. Pepper, Memphis, was today elected president of the Southern Methodist Sunday School Board, to succeed Bishop James Atkins, deceased.

The Street Cars lost from \$50 to \$100 per day on the 15th fare, which means twenty to thirty thousand dollars per year.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 15c and 30c.

Good News For the Ladies!

The Pullman Company is making traveling more comfortable for the ladies. Women's dressing rooms in all its new cars are considerably larger than formerly. The new length of the cars is the absolute maximum that can be used on the present standard curves in railroad tracks.

INVESTIGATION OF WHEELER CHARGES WILL START TODAY

(By The Associated Press.)

WASHINGTON, April 16.—Senate investigation of the indictment of Senator Wheeler, Democrat, Montana, prosecutor of the Daugherty Committee, by a federal grand jury in his own state, will get underway tomorrow before a special committee which Senator Borah, Republican, Idaho, is chairing.

Gordon Campbell, a geologist of Great Falls, from whom Senator Wheeler is accused in the indictment of accepting money for prosecuting oil lease claims before the Interior Department after his election to the Senate, probably will be the first witness.

Edwin S. Booth, solicitor of the Department of the Interior, and other officials of that department also will be called before the committee together with additional witnesses from Montana.

A change in the personnel of the investigating committee was made today by President Committee of the Senate, Senator McNary, Republican, Oregon, being named to replace Senator McLean, Republican, Connecticut, who resigned because of pressure of other work.

Senator Wheeler said today he would attend the opening session of the investigating committee, which will have public hearings.

AT WORK ON MURDER CLUE

(By The Associated Press.)

FORT SMITH, Ark., April 16.—W. J. Martin, mayor of Van Buren, Arkansas, announced today that stony ground in loose earth about an empty grave discovered under a recent dwelling in Van Buren had been analyzed as human blood. A police investigation is underway in the belief that the grave had been prepared to receive the body of a murder victim, but the slayers were frightened away before the burial could be made. It was stated that one suspect was under surveillance and that the police were working on what was believed to be a tangible clue.

TAX EXAMINERS APPOINTED

(By The Associated Press.)

RICHMOND, Va., April 16.—Robert W. Arnold, Wakefield, was appointed by the estate commission on taxes as examiner for the third judicial district. Joel W. Wall, Bedford, was appointed for the sixth circuit. P. M. Watts, Orange, for the ninth circuit, and W. M. McNutt, Glasgow, the eleventh circuit. Examiners in 23 other circuits were reappointed. The terms of all 27 will run for four years each beginning May 1.

It kills them!

CADETS OUTCLASS PRESBYTERIANS IN ONE-SIDED AFFAIR

The Tigers walloped George Geoghegan's Presbyterians yesterday in what became ere its end a regular D. M. I. hitting contest and base running practice. The Cadets ground the hot after the first few frames and drove Dickerson, an ex-cadet and the first Presbyterian twirler, from the mound. H. Keck, who relieved Dickerson for the Presbyterians, was able to locate the plate a little better but the young soldiers soon took to his offerings and punted the horsehide as lustily as before. It was then that the Presbyterians, seeing that defeat was inevitable, loosened up and laughed while the Tigers fattened their batting averages and chased each other around the sacks.

Bill Hughes for the Presbyterians played good ball at short, and Captain Carter of the D. M. I. faculty, who was with the Presbyterian nine, proved the Jonah for the Tiger twirler. On his first trip up he smashed the ball for a two-bagger, hit for a single on his second trip, fled to right and went safe on an error the third time, and slashed for a homer on his final trip.

Bernstein, Cadet twirler who was working temporarily on the hot corner, tripled twice and hit for a two-bagger on the side out of four times at bat. Wilkinson, receiving from Fowler, caught a steady game, had but one base stolen on him and with Fowler took credit for ten strikeouts. Dickerson and Keck, Presbyterian pitchers, blanked fourteen men but suffered seriously in the meanwhile.

Score by innings:

TRIAL OF SOULS TAKEN UP BY EVANGELIST

Ever since the year 1844 God had been trying the cases of men and women in this world, according to Evangelist Pickard. His subject last night was "Court Week in Heaven" and he handled it in a most thrilling manner. "All the deeds, both good and bad, of every human being in this world are written down in books, and these books are the testimony by which each case is tried. The Bible is the law book and Jesus is the advocate," he continued.

"Every sin confessed and forsaken before the case in question is tried, is blotted out by the application of the blood of the Saviour; the name of every person whose sins have not been confessed will be blotted out. Now there is grace. Tomorrow may be too late. Even if the great judgment of God were not in session, life is uncertain, and just as the book stands when life ceases, so it must remain."

Tonight Mr. Pickard will discuss "The Conditions of Salvation."

\$163,566 TO ENCAMPMENTS

(By The Associated Press.)

RICHMOND, Va., April 16.—A total of \$163,566 has been allotted by the War Department toward the expenses of the annual encampments this summer of the four Virginia national guard units. Adjutant General W. W. Sade was advised today by Major General George C. Richards, chief of the militia bureau. Twenty-three thousand dollars additional has been allotted for improvements at the state rifle range.

MY DAUGHTER WOULD CRY AT EVERYTHING

Nervous and Irritable. By Taking Lydia E. Pinkham's Vegetable Compound Became Entirely Normal

Clinton, Wisconsin.—"My daughter was in a very run-down condition, and was irritable, and would cry at every little thing she was so weak and nervous. As Lydia E. Pinkham's Vegetable Compound had helped me when I was a girl I gave it to her to build her up, and the results were all that we could wish for. I wish that every mother with growing girls would try it for these troubles girls often have. I had taken it myself before my girl was born, and she was one of the nicest babies any one could wish to have. I recommend the Vegetable Compound to women and girls and cannot praise it too highly."—Mrs. L. A. HOLFORD, Box 28, Clinton, Wisconsin.

Mothers can depend upon Lydia E. Pinkham's Vegetable Compound to relieve their daughters of those troubles they so often have. They know from experience the value of the Vegetable Compound in the treatment of these complaints and many, like Mrs. Holford, give it to their daughters.

HELLENIC SOCIETY IS GENEROUS CONTRIBUTOR

The Hellenic Philanthropic Society of Danville held a well attended meeting at 2:30 p. m. yesterday at the Masonic hall. This organization is quietly doing much practical and valuable work for the Greek residents of Danville in impelling them to become citizens of their adopted country and give to it their undivided loyalty and in impelling them to become identified with all public affairs and all the beneficent and public-spirited movements of the society yesterday voted contributions aggregating \$25 to local religious and beneficent causes.

It can't be done! The 6c token fare and 7c cash fare will be restored on Street Cars Wednesday, April 16th.

RED STAR OIL STOVE

Fourteen New Patented Improvements

Unquestionably, this Red Star sets an entirely new standard in oil stove construction and cooking service. Around the famous Red Star All-Metal Burner has been built a body of immaculate beauty and life-long durability. In fourteen ways this oil stove has been improved. So radical are these improvements that governments have allowed patents on them.

See the smooth surfaces of the stream line body. See the Double-Flue Ozono Oven. See the sanitary cooking top. Flush oven door with invisible hinges. Note the absence of usual bolts, screws, hinges and other dirt and grease catching places. This Beautiful Red Star burns common kerosene, gasoline or distillate. Cooks with clean, fast gas heat. Demonstration daily.

Time Payments If Desired.

Fellowship of Prayer

Daily Lenten Bible reading and meditation prepared for Commission on Evangelism of Federal Council of the Churches of Christ in America.

THURSDAY
The Communion Service

Read Mt. 26:17-25. Text: 26:26-27. And as they were eating Jesus took bread, and blessed, and broke it; and he gave it to the disciples, and said, Take, eat; this is my body. And he took a cup and gave thanks, and gave to them, saying, Drink ye all of it, for this is my blood.

"Jesus knew that the effect of his death would be to bring men and women into a relationship infinitely closer and lasting. The heart of the world would break in penitence before the cross, sin would be forgiven and character purified."

MEDITATION: In this last meeting with his disciples Jesus desired to bind the hearts of his intimate friends to him forever. Jesus realized that his own strength was continually renewed through communion with his Father God, and in the fellowship of this hour he gave to his disciples an opportunity to share with him his spiritual communion with the Father.

PERSONAL QUESTION: Do I faithfully refresh my soul through communion?

PRAYER: Eternal God, may the presence of the spirit of Christ give us strength to do thy will. May we have true communion with thee. May every part of our being be fruitful in love to thee and service to our brethren. Keep the fires of our souls burning and may our love abide, thru Christ, Amen.

It is known that not only were these offenses not to be condoned, but that he for one was glad and anxious to rid the party of the offender.

The present position of The National Republican in defense of various officials in and out of office is not inexplicable. It makes a superficial appeal to that appreciation of loyalty which is man's instinct. What Colonel Roosevelt would never have countenanced is the sort of attack the organization's news bureau made recently, for example, on Senator Wheeler and the aspersions cast indirectly on the electorate of Montana. When the Colonel fought, he faced his adversary; his attacks were never from the rear. If the question concerned the honesty or capacity of a public official, that would have remained the issue throughout. It would never have justified the raising of a smoke screen of utterly irrelevant counter-charges.

And as far as it lay in his power to do so, which sufficient, he would have informed the national organization and its publication that that was not the Roosevelt style of doing battle.

SAY, THAT'S OUR POLE:

For 15 years, Americans have been lulled into a state of blissful security. They have been led to believe that they possessed an unchallenged title to that parcel of the earth, particularly described as 90 North Latitude, together with all and singular "the hereditaments thereto attached. Pride of possessing the North Pole has glowed deep in every American heart since that fateful day when Admiral Robert E. Peary reported his discovery. Indeed, the pride began to glow when Dr. Frederick Cook announced the Pole's discovery somewhat prematurely.

And now in the hour of peace, the moment of contented possession, comes a dire and dastardly threat. From faraway Moscow, comes the insolent prophecy of a Soviet aviator, Rossinsky by name, that he will plant the red flag on the Pole by September.

It is a time for reflection. The government should have the undivided support of all parties in the crisis. Our sovereignty over the Garden Spot of the farthest north is challenged. An affront endangers the aloof unfriendliness of our relations with the Soviet government of Russia. Mr. du Pont and Mr. Gompers must get together. Dr. Cook, whom the government recently drafted for 14 years service near the Leavenworth barracks, should be asked to lead a relief expedition to protect our prized possession. Unless prompt action is taken, thousands of helpless waifs may come under an autocratic government, foreign to American ideals. Every iceberg must do its duty.

ADVISE EMBARGO ON CALIFORNIA SHIPMENTS

(By The Associated Press.)
RICHMOND, Va., April 16.—Gov. Peckinpaugh received today from the State Taxation Sanitary Board a recommendation that he issue an executive order placing an embargo upon shipments from California for an indefinite period because of the epidemic of food and mouth disease in that state.
J. G. Fenneshough, state veterinarian, said today that proposed regulations embodied in the recommendation to the governor had been adopted yesterday by the sanitary board. He said he expected Gov. Peckinpaugh's early approval of the embargo recommendation.

FLIGHT A SUCCESS

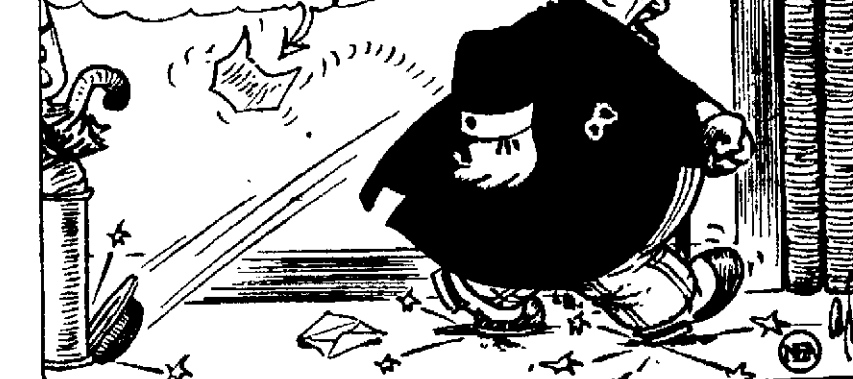

(By The Associated Press.)
ALBANY, N. Y., April 16.—Lieutenant H. C. Dornay and Navigator Bradley Jones of McCook Field, left Dayton, Ohio, this morning for a 516 mile flight to the city using a biplane and instruments as flying aids, landed in a field five miles south of Albany, where the flight was regarded as a success.
Lt. Dornay, thinks Col. Bill Keeling, commander of the flight, a high powered airplane, a low powered airplane without running into the post house.

HOW TO KEEP WELL

By DR. W. A. EVANS

Questions pertinent to hygiene sanitation and prevention of diseases, if matters of general interest, will be answered in this column. Where space will not permit, or the subject is not suitable, letters will be personally answered to proper authorities, and where a stamped, addressed envelope is enclosed, Dr. Evans will not make diagnosis or prescribe for individual diseases. Requests for such service cannot be answered. Address Dr. Evans, Care The Bee.

Constipation.

Some cases of constipation are due to irritable bowel, displaced bowel, or strictures, or something similar. These cannot be cured by simple procedures, but I am now writing does not apply. In the majority of cases constipation is merely a bad habit, and, as such, can be corrected. The harm done is great and far reaching. Headaches and a multitude of minor but disabling disorders are among the direct effects.

Among the indirect effects charged against constipation from time to time are some of the seven organic diseases.

The habit of taking purgatives is among the principal causes. The first step in cure consists in cutting loose from all purgatives. This includes soda, salts, calomel, laxative waters, and all forms of laxative pills. If, during the period of formation of new habits, after the use of pills and other purgatives has been discontinued, it becomes necessary to use anything, employ an enema. If enemas are used, it should be only under special need, for the enema habit is almost as bad as the constipation habit.

DRINK.—Drink two glasses of water on arising. Take it warm or cold, as is preferred. Some people add salt to the water, but salt is a saline laxative. At least five more glasses of water should be taken during the day, preferably between meals, though moderate water drinking at meals is harmless.

FOODS.—Eat fruit freely, both cooked and raw. Some people get good effects from eating them at night. Eat bran bread, or bran as a cereal instead of ordinary bread. Ordinary cereal, Baster's recipe for bran cereal is:

Dissolve one-half teaspoonful of soda in one-half cup hot water; add three-quarters cup of molasses, tablespoonful of butter, salt to taste, two cups wheat bran, one cup bran meal, one cup milk, and mix and bake. Stewed prunes can be eaten night or morning. The prunes are best when cooked in molasses or honey. Eat an abundance of such vegetables as onions, celery, radishes, turnips, beets, squash, pumpkin, cabbage, lettuce, peas, beans, and all kinds of salads, in addition to apples and prunes, eat all kinds of berries.

A heaping teaspoonful of lactic acid, taken in a glass of water half hour before breakfast, is good.

EXERCISE.—All forms of exercise are good, but bending exercises are best. Nothing is better than the set-

ting up exercises used in the army. **MASSAGE.**—Place the ball of the hands below the ribs at the sides of the abdomen, the fingers meeting in the middle line over the abdomen in front. Manipulate the small intestines in front with the fingers. Wait 30 seconds. Press in deep and hard with the butt of the hand for five seconds. Wait 30 seconds. Repeat.

If these measures fail, consider using agar and mineral oil.

Fumes Are Dangerous.
Mrs. J. H. writes: We live in a three-room apartment, first floor, and our bedroom is directly over the furnace room. The walls are badly smoked, and at night, even though the windows are raised, the room seems full of gas. Is it well to sleep in a room like this and would it affect a baby in any way?

REPLY.
There is some danger. In Evanston, Ill., an entire family was recently made unconscious by fumes in a situation something like the one you describe. Two members of the family died.

What She Should Weigh.
Miss M. K. A. C. writes: What should my proper weight be? I am a girl of 24, height 5 feet 1 inch.

REPLY.
One hundred and eighteen pounds is the height commonly given. One hundred and fifteen is a better weight for a woman of that age and height.

Hot Water and Steam.
J. C. R. writes: A few weeks ago you compared the heating of dwellings with hot water and with steam. I would be glad to know the advantages of heating with hot water and does it compare with hot water and steam heating in economy of fuel and healthfulness?

REPLY.
Heating with hot air is inexpensive for installation, but is expensive for operation.

It is difficult to ventilate when heating is done with hot air. While it is difficult to humidify in this quality of hot air is intermediate between steam and hot water heating. Humidifying is easiest where steam heat is used.

As compared with stove or open fire heating, hot air heating is more expensive to install, but less expensive to operate.

It is more comfortable than open fire heating and, on the whole, more wholesome.

the ground and others get their noses into the dirt.

Let them poke fun at it if they like, but the next president will be elected by Main street.

Recent events have provided one or another of our shining political lights with a dull finish.

It is being up in the air means the same thing. Harry Daugherty is at the height of his career.

Taxpayers often feel like the man who stands up in the sidewalk and lets somebody throw knives at him.

Harry Daugherty, addressing neighbors at home, declares he is proud of his record as attorney general. Oh, all right.

Another gentleman who has come to be regarded with some suspicion is anyone who claims to be 100 per cent, something or other.

George Harvey describes himself as an "independent independent." If his meaning is still obscure, probably George is willing to add another.

Street noises that once didn't matter so much, now excite the apprehension on the part of a driver that his motor has fallen out and is dragging.

Harry Daugherty's Ohio friends deny their man was a load on the government. On the other hand, they do not insist he was a pair of water wings.

Some of the farm aid propositions advanced lately suggest that a congressman would be of more practical assistance if he went home and helped the hog.

Scoop's Colyum

DRAKES BRANCH, April 17.—(Grapevine Wireless.)—Bedtime story by Uncle Billy, dedicated to the Grapevine Club:

Way back where history just begins to crawl out of the ooze of the prehistoric we find the Hon. Bull spoken of quite highly. It is into this day. There is nothing new under the sun, nor is the sun itself particularly recent. Just as lawmakers today worship The Bull, just as reformers today exalt The Bull, just as the foxy sheik, pursuing the village queen, brings his little black bull along to help him out, so the old, whiskered Babylonians exalted The Bull and used him hourly.

Taurus, the Bull: Today the second sign in the zodiac—see Doc Miles or Doc Hostetter's recent works; called by the Arabs Taur; by the Greeks, he is the form into which Zeus, the boss god, turned when he desired to carry off Europa, daughter of Agenor. The Greeks were foxy guys all right; all right; even their chief gods knew that a little bull helps carry a woman off her feet. The Bull was the God of the Greeks among the Egyptians and doubtless galavanting King Tu-Tank filled one of his tanks will bull when he galloped forth to enhance his harem.

Since time began and the sons of men have waged a wicked jaw in pursuit of the missing link, woman, the ascendancy of the bull has been perennial and its worship worldwide.

Long Live Pedro.—Whiz Bang.

SOME OF THESE CANDIDATES BETTER BE CAREFUL OR THEY'LL CONSENT TOO LATE!!

Not every fly that comes along is carrying disease germs, but many of them are, and you can't tell which is which. Take no chances—swat all.

The Flies' Revenge.
"Ten little flies
All in a line
One got a swat!
Then there were

Nine little flies
Grimly sedate;
Licking their chops—
Swat! Then there were

Eight little flies
Raising some more—
Swat, swat! Swat, swat!
Then there were

Four little flies
Colored green-blue.
Swat, swat! (Ain't it easy?)
Then there were

Two little flies
Dodged the civilian—
Early next day
There were a million!"

At this time of the year, a bird on the hat is worth two in the shop.

The morning call: T-u-r-n-i-p S-a-l-a-d, L-a-d-y!!

He: "What's the hardest thing in married life?"
Widow: "Staying married."

"Crossing the bar" meant that one had finished with life. Crossing the street means that one is about to finish.

One magazine says girls are crazy to become movie actresses. Well, says Van Alst, some of them are and that's a fact.

"Ever since the wife has had hardwood floors put in and the woodwork polished, matches won't strike worth a darn, yanked a member of the Northside Spit & Argy Club the other day.

Mother—"Do I get two pairs of pants with this suit for my boy?"
Salesman—"No, indeed." Not with this suit. It wouldn't do. Why, this suit, by the time a gentlemanly lad like yours would wear out one pair of these pants the coat would be so out of style he wouldn't be caught dead in it."

What the police need, thinks Julius is a trained bullet that will dodge about spectators on its way to the thief, instead of through them.

Advice to witnesses: You gotta see Mumsa's night or you mustn't quote Mumsa at all.

A normal husband, in the opinion of Gladys is one who wishes every old maid had a fine man like him.

To be or not to be tickled in winter underwear, or sneeze in R. V. D's? That is the question.

There was a day when I longed to be a man And carry money in my pockets. I still do.

This case will be on me, said the bootlegger when he appeared in court.

No, indeed. Flapper—"Tell me, Minister, why do you address your congregation as 'Dear Brothers'?" You seem to forget the ladies."

Vicar—"But the one embraces the other."

Flapper—"Yes, but not in church."

"Aha," chuckled the poor man. "Spring is almost here and my seven daughters will be delighted with the new millinery model."

We are perfectly willing to read peace plans when it comes to paying \$50,000 for one, that's where we stop.

Insanity may be caused by shock, or by the advice of a good lawyer.

Our friends at the capital are pouring oil on troubled waters to calm the tempest in the Teapot.

HIS BROTHER'S WIFE

© NEA SERVICE

Chapter I
The Shadow of War

Mary Fumival was knitting khaki socks.

The September sunshine, piercing the lace curtains, shone on her quiet face and the flying needles in her white fingers.

From her curled-up position in a corner of the couch, Dolly Bretherton watched her with concealed impatience.

Dolly could not have knitted socks had her life depended on it, who had made one or two attempts, and had given it up in despair.

The stitches would drop from between her pretty, useless-looking fingers, and the wool kept entangling, but she envied Mary Fumival's quiet capability as she sat there in the afterglow of the sunset, placidly adding row upon row of the buff-colored wool.

In the middle of turning a heel, she looked up, and met Dolly's eyes. "Well," she queried.

"I suppose you think that I ought to be making socks, too?" she submitted, half-resentfully.

Mary Fumival laughed, a laugh that ended with a sigh.

"I wasn't thinking of anything of the sort. I was just wondering if—"

The words seemed to escape before she realized their import. Dolly broke off hurriedly and, leaning over, caught Dolly's hand.

"I am so sorry, dear. I ought not to have said that. Of course he will come back."

There was a little silence. Dolly had flushed up to the roots of her hair; her left hand, the one that bore Nigel Bretherton's wedding ring, opened and shut convulsively over the folds of her frock.

The half-finished sock had fallen from Mary's lap to the floor. Dolly looked down at it, and a little shiver shook her.

Nigel had been one of the first to answer his country's call, and since then everyone had been so good to her. They had all taken it for granted that she must be broken-hearted at parting with him; they had all been sorry for her.

That had been the hardest part of it all—the having to pretend, to eternally act, and keep them all blind to the horrible truth that Nigel had been glad to go, that for the last few months of their married life he and she had been unwilling prisoners, chained together, each straining at the bondage holding them.

It had been a mistake, a marriage, for which she knew she alone had been to blame.

Chapter II
Dolly's Love Story

Looking back to that April morning eighteen months ago, it all seemed such a foolish, stupid blunder.

She had hated him—Nigel, the son of a poor couple of spoilt, unmanageable children; she had hated her mother, a haughty, unsympathetic, nouveau riche; and most of all, she had hated the unkind, ungrateful fortune that had made Robert Durham a member of the aristocracy.

She had been poor, and she had been hard to keep up appearance—and her soul shrank from perpetuating it by marriage with Robert Durham.

She loved him; she loved him as well as it was in her to love any man, and yet she could not face the prospect of a stucco villa and a small income for the rest of her life.

And then, one bright April evening, Nigel Bretherton had opened the schoolroom door and walked into her life.

She could recall it all so plainly now, though it was eighteen months ago; she could see him as he had seen him then—all, and good to look upon, with the quick admiration in his eyes as they rested on her face.

He had come to the schoolroom often after that, and by the time she had found out that he was a well-to-do, intelligent son with prospects, he had proposed.

They were married in less than a month; he explained that there was nothing to wait for.

"I haven't any people except a brother who is living in South Africa for a couple of years, and probably will never come back. He's a good deal older than I am, and delicate—a quaint sort of fellow. I don't think you'd care to meet him."

So they married in haste, and came back from a honeymoon of disillusionment and petty disagreements, with all the remainder of their lives in which to repent at leisure.

Dolly had disliked her husband, the fact that she would never care for him, a man half so well as she had married, was a perfect certainty.

She had been perfect in her husband's eyes, but he had married a woman beneath his own station in life.

The Bretherton's of Little Helpton were "somebodies," even though the old mansion which had been theirs for centuries had been left to them, a fact which Dolly resented.

She would have liked to be the lady of the manor; she would have liked to live among the blue-blooded memories and portraits of ancestors. Once she said so to Nigel.

"The old place belongs to David," he said. "I suppose I shall have to live in the end, but you'll have to wait."

He took a charming flat for her in the pictures she had seen of the Red Grange.

"Why is it left?" she insisted irritably. "Why don't you live there?"

"It's David's, as long as he's alive."

SACROSANCT.
(By Ada Borden Stevens.)

By well-lit, dimmed halls, And arching doors, oft left ajar, My friends may wander in.

And out through galleries, that are Adorned with tapestries, Fresh from my loom.

But in an inner court there is a room Set preciously with walls of amber, thyme.

And, oh, you, my dear, of all the world, May keep its trust.

These walls hold chests that store Old memories, With pride We draw the draperies.

Alford for its hoar, a bride, It folds for its hoar, a bride, Woven of gold.

Deep in the shadowy, the eaves are old, Caskets of silver day-dreams—how they shine!

And you alone, my dear, may look on them, For they are mine.

Chapter III "Glad to Go"

Mary Fumival's gentle voice broke the silence of the sunny room again.

"He will come back, Dolly dear, please God he will come back safely."

"You all seem determined that I shall go on pretending."

"Dolly flung aside the caressing hand, and rose to her feet.

"You all seem determined that I shall go on pretending," she said harshly. "Sometimes I feel as if I must scream when people ask if Nigel, and pretend to be sorry for me. Why, you must know, if no one else does, that we were tired of each other almost as soon as we were married. Oh, I know I ought not to say these things," she burst out.

"If I can't say them to somebody I feel such a humbug—such an absolute humbug!"

She came back to where Mary was sitting, and dropped on her knees by the older girl, hiding her hot face in her lap.

(Continued in Our Next Issue)

MOTORMAN EXEMPTED OF BLAME FOR CHILD'S DEATH

(By The Associated Press.)
RICHMOND, Va., April 16.—H. L. Cration, motorman, arrested several weeks ago on a charge of involuntary manslaughter in connection with the death of Robert Cary Lambert, eight-year-old son of the manager of the Richmond Union Stock Yards, who was killed when he fell from the rear of a street car, was dismissed today after a preliminary hearing in district court.

Witnesses declared Cration was guiltless of carelessness as the boy, on his way home from school, was riding on the outside of the car, one one-man pay-as-you-enter type.

BERRY ENDORSED FOR PRESIDENT

ATLANTA, Ga., April 16.—A resolution endorsing Major George L. Berry, president of the International Printers and Pressmen Union, for the Democratic nomination for president, was passed by the Georgia Federation of Labor at the 26th annual convention here today.

PRICE: 15 CENTS

TERRIBLE THING HAPPENS

SPORTS

A college professor and his wife really were shipwrecked on a South Sea island. To be exact, the island is 376 miles from Samoa. And they stayed there almost a year before being rescued. Only a college professor could have been absent-minded enough to take his wife along on an adventure like that.

SOCIETY

Bad sea lion news today, terrible sea lion news in a Seattle day. The war veterans will sympathize with any sea lion that has to eat so much salmon.

FASHIONS

Women are wearing fringes on their dresses and many a man is wearing the same on the bottom of his trousers.

HOW TO MARRY

Every girl wanting to marry should go with two fellows because one will tell her all about the other.

WAR NEWS

Wars are useful in one way. They can be blamed for everything that happens until the next war.

ADVERTISING

Buy one of our anvils. Excellent for killing mosquitoes. You place the little mosquito on the anvil and hit him with a hammer. Very humane.

EDITORIAL

A San Francisco man wants a divorce because he says she slapped him every night when he came home from work. Something should be done.

MUSIC NOTES

There can't be any harmony with everybody trying to do a solo.

Awful Ruling By Judge.

In Los Angeles a man has been sent to jail for two years because he swore falsely to the age of a bride. If the judge's ruling is not reversed no telling what will happen. June is coming and half the honeymoons will be spent in jail.

But let us try to see the bright side of everything. Spending the honeymoon in jail is fine training for just sitting around home, as many of the last June couples are doing now.

BOOZE NEWS

In Kentucky, a moonshiner trained his dogs to warn him. They may have been hot dogs, but we think they were rum hounds.

AUTO NOTES

The cost of living may be reduced some day, but the chances are reduced everyday.

FINANCES

Wouldn't it be great if money circulated as fast as rumors?

CHURCH NOTES

People who go to church are seldom the ones who need it most. Done to protect such men. It's a wonder she didn't break his wrist watch.

CAT NEWS

A cat in Waco, Tex., has six toes on both front feet, and she has some kittens that have six toes on their front feet. With all these claws none of them will need more than four or five lives.

WEDDINGS

A Detroit man sold his wife for a dollar and they arrested him. Lots of things are going for less than cost.

Final Curtain About to Descend

ELLEN TERRY SELLS FLOWERS FOR THE BLIND

By MILTON BRONNER

LONDON, April 17.—It's Act Five in the life of Ellen Terry, England's greatest living actress—and the final curtain can't be far off.

With the burden of 76 years of strenuous life weighing upon her now frail shoulders and with her own sight dimming rapidly, she is devoting her sunset hours to the cause of the blind.

The other day, as head of a league whose holy task it is to serve the blind, she spent the entire day superintending the selling of daffodils on London streets, the money to go to the Ellen Terry homes for blind children. She calls herself a "servant of the blind." Her league she says, aims to flood light on "the grayness and the stillness which lurk over the company of strange and lonely souls."

The last time, some 15 years ago, when she returned from America, she announced a matinee performance for London. And a woman who lived way on the outskirts of the city sat on a camp stool for 30 solid hours to be sure to get a ticket. That's the kind of Terry fans they are.

There's the pretty story of the cynical George Bernard Shaw who has spent most of his life smashing popular idols. It was rumored that Miss Terry was to be made a Dame Commander of the Order of the British Empire. As a matter of fact, it was offered and refused. But before this was announced, Shaw said feelingly:

"Ellen Terry made her own name more famous than any official title. Why should she condescend to be mixed up under the nursery rhyme designation of Dame with a host of comparative nobodies? I can't back a movement to turn Ellen Terry into a Dame, but I would gladly back to movement to turn the Dames into Ellen Terrys—if that were possible."

Tiring of her Chelsea home, Ellen Terry gave it up and took a flat in St. Martin's Lane, right in the heart of theaterland. And because sunshine is a rarity in London, her artist friends decorated her rooms in bright daffodil yellow.

Having given up the speaking stage because of failing memory, two years ago Ellen Terry made her debut in the movies. And she's a Charlie Chaplin fan, declaring him a real genius. And finally she says she would like to live to be 300. There is much she still wants to learn, particularly as she says she is just beginning to understand things.

A CRV IN THE NIGHT, gripping pains in the vitals, cramps, vomiting, diarrhoea—whether child or adult, immediate comfort and ease in CHAMBERLAIN'S COLIC AND DIARRHOEA REMEDY. Pays to keep always on-hand.

Why Girls With Yellow Teeth Are Unpopular

No girl with yellow-stained teeth can be popular—no matter how attractive she may be otherwise. A girl may have a pretty face or a pleasant personality—yet if her teeth have a yellowish look she cannot be truly charming to men.

Men admire personal daintiness in a woman more than the clothes she wears. Notice the girl with pearly white teeth—she has a charm and attractiveness that is always lacking in the girl with yellowish teeth. Yet there are still many girls with dull dingy teeth who have not found out that teeth stains and discolorations can be completely removed by using a new scientific treatment recently perfected. This remarkable discovery is known as Bleachodent Combination. Contains a mild liquid which quickly softens and loosens the hardened stains which cling to the teeth so that they can be gently removed by the special kind of paste included in treatment. Once the stains have vanished Bleachodent Combination will prevent the formation of future stains and keep the teeth beautifully white—always.

This wonderful treatment, while it completely cleans the teeth, does not affect the enamel as its mild ingredients are especially combined to act only on surface stains. Men always admire sparkling white teeth. So get Bleachodent Combination (containing both liquid and paste) today. Small cost. For sale at all good drug stores.

FAMOUS OLD TONIC STOPSPRINGFEVER

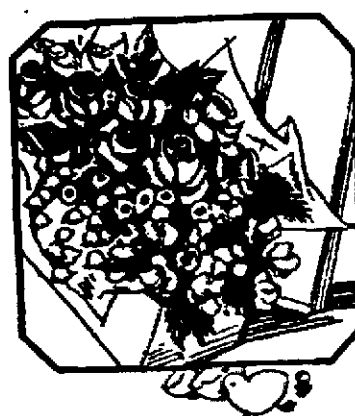

THERE is no better spring tonic than Gude's Pepto-Mangan. At this time of the year, everybody needs something to enrich the blood and tone up the system.

If you are beginning to feel listless and exhausted, get Gude's right away and begin to get the benefit of its wonderful strengthening, energizing qualities. It contains the iron your blood needs and the health giving invigorating elements to put you in fine trim for spring and summer. At your druggist's in both liquid and tablet form.

HUNT'S WASHINGTON LETTER

By HARRY B. HUNT

WASHINGTON, April 17.—The superheated atmosphere that has enveloped Washington since the fires of senatorial investigations began to rage early in January reached the maximum of torridity following the letters of President Coolidge and Secretary Mellon virtually demanding that further inquiries cease.

The eruptions that came to public notice, in public statements and speeches on the Senate floor, gave little idea of the seething fury that was raging under the surface on both sides.

The situation has passed the stage of a "tempest in a teapot." It has over "The Teapot." A condition is being developed that may bring a movement to turn Ellen Terry into a Dame, but I would gladly back to movement to turn the Dames into Ellen Terrys—if that were possible.

Politically, the affray to date has been a bout with padded gloves compared to the battle that is to come. How much longer the amenities of a fight under recognized rules will be continued is a question. Probably not long.

Both sides are already charging "fouls," and at any minute now all rules are likely to go to the winds and the battle become a free-for-all, with bare knuckles, brass knuckles, teeth, heels and belaying-pins.

The suggestion that Francis J. Heney be employed as special counsel to assist the inquiry into the revenue and prohibition bureaus of the Treasury Department was a red flag to senators and others who have been to get the lid on Senate investigations. Heney, they protest, is no safe man to turn loose with a pry-pole. He's too apt to go poodling into matters apparently irrelevant and showing up actual relationships. And there's been too much of that already, they insist.

Senator Jim Watson of Indiana, for instance, chairman of the treasury investigating committee, has an anti-Heney complex. When Couzens, a fellow Republican, voted with the two Democratic members to employ the California inquisitor, offering also to supply the funds necessary for his retinue Jim almost had apoplexy.

Jim, it is understood, always has believed Heney wrote a letter which

The Street Cars lost from \$60 to \$100 per day on the 5c fare, which means twenty to thirty thousand dollars per year.

the Federal Trade Commission issued concerning a resolution. Watson introduced some years ago for an investigation into that body. Watson wanted the trade commission disbanded. He charged it with prying into private affairs and being a hindrance instead of a help to business.

The letter was a caustic, critical episode, reviewing at some length Watson's former connections as lobbyist for the National Manufacturers' Association. Heney, I am informed, did not write it, but Jim has always blamed it on him, anyway.

LOCKOUT IN BUILDING TRADES IS BEGUN

(By The Associated Press.)
BALTIMORE, April 14.—A lockout of union labor, affiliated with the Allied Building Trades Council began today on buildings being erected by members of the Master Builders' association.

No accurate estimate of the number of men affected could be given by the leaders of either side. It is thought, however, the number is less than 2,000. Union officials claim it will be even lower than this, and that the lockout will be a "fizzle."

The lockout followed a strike of union workmen on a building on which substitute contracts were let to firms employing non-union labor.

By Maurice Henle.

NEW YORK, April 17.—If one sound thought justifies a play, then "Man and the Masses," or "Man and the Masses," has not been brought to Broadway by the Theater Guild in vain. In the last act the Woman, symbolizing the individual in an existing social order, raises her hands to heaven and upholds her faith in the indestructible good of human nature.

But the remainder of the play is strikingly similar to the confused thoughts that rattle around in the brain of the average parlor Bolshevik. As my companion at the theater said, one is reminded of a debate between Newell Dwight Hillis and Scott Nearing.

Ernest Toller wrote the piece. Toller five years ago was a ring-leader of a short-lived revolution in Munich. He was sentenced to prison and now is serving the last year of that term in a fortress at Niederschönenfeld. The program describes him as an "ardent Communist."

Some of the scenes represent distorted dreams that go on within the mind of the Woman. They are beautifully worked out, thanks to the excellent staging by Lee Simonson. Tableau and lighting effects are striking, but the beauty of the piece suffers with its pictorial splendor. Possibly it suffered in translation. Possibly it takes Continental ears to appreciate a story of social conditions should be strong and definite one way or the other. But one almost is at a loss to discover what "Man and the Masses" preaches. We prefer to believe that the lesson it brings is that there is but

ERNEST TOLLER.

one solution to our economic problem and that lies not in social revolution but in man's innate goodness. But we're not even sure that's what Toller wanted to preach. He seems confused.

"The Bird of Paradise" is to be filmed. Richard Walton Tully, its author, is at work on the continuity. This means that the most popular show of the last decade is at last to be silenced. Producers are seeking a lead. Why not Lenore Uric herself, if she is available?

An open letter to Thomas Meighan: Dear Mr. Meighan: We saw your new picture, "The Confidence Man." It seldom has been a picture so misnamed. We need go no farther than the leading man. If you are a confidence man it is merely in the sense of having the public's confidence. You are as much at ease in a "confidence

"Tiz" Eases Aching, Swollen, Sore Feet

Just take your shoes off and then put those weary, corn-pestered, bunion-tortured feet of yours in a "Tiz" bath. Your toes will wriggle with joy, they'll look up at you and almost talk and then they'll take another dive in this "Tiz" bath.

When your feet feel like lumps of lead—all tire out—just try "Tiz." Its grand—it's glorious. Your feet will dance with joy; also you will find all pain gone from corns, callouses and bunions.

There's nothing like "Tiz." It's the only remedy that draws out all the poisonous excretions which puff up your feet and cause foot torture.

A few cents buy a box of "Tiz" at any drug or department store—don't wait. Oh, how glad your feet feel—how comfortable your shoes feel—adv.

Cuticura Will Keep The Scalp Clean And Healthy

Anoint the scalp by gently rubbing Cuticura Ointment through partings in the hair, especially on spots of dandruff, itching, or scaling, over night when possible. Then shampoo with a soda of Cuticura Soap and warm water. Rinse thoroughly.

Sample Free by Mail. Address: "Cuticura Letter," Dept. 77, Malden, Mass. Send your name and address to Dept. 77, Malden, Mass. 02148. Try our new Shaving Stick.

"HEALTH RESTORED BY INTERNAL BATHS AT 68 YEARS"

Mr. Elias E. Mills of 21 Smith St., New Bedford, Mass., writes to the Tyrrell Hygienic Institute: "I have a favorable report to make in behalf of the J. B. L. Cascade, which has completely restored me. At 68, I am in absolutely perfect health as far as I can ascertain."

The J. B. L. Cascade cleanses the lower intestine its entire length and keeps it always free of poisonous waste.

Thousands testify that Constipation, Indigestion, Stomach Troubles, Bilelessness, Headaches and all the many serious troubles which they cause are absolutely relieved and prevented by this Nature Treatment.

We will gladly explain to you the simple operation of the J. B. L. Cascade, why it is so certain in its results, and will give you free of cost, an interesting little book containing the results of the experience of Dr. Charles A. Tyrrell of New York, who was a specialist on intestinal complaints for 25 years in that city. Get a free booklet at PATTERSON DRUG CO.

Stiff, Swollen Joints Joint-Ease

Says: "When Joint-Ease Gets In—Joint Agony Gets Out."

It was a high-class pharmacist who saw prescription after prescription fail to help hundreds of his customers to get rid of rheumatic swellings and stiff inflamed joints. And it was this same man who asserted that a remedy could and would be compounded that would make eeky, swollen, tormented joints work with just as much smoothness as they ever did.

Now this prescription, rightly named Joint-Ease, after being tested successfully on many obstinate cases, is offered through progressive pharmacists to the millions of people who suffer from ailing joints that need limbering up.

Swollen, twingy, inflamed, stiff, pain-tormented joints are usually caused by rheumatism, but whatever the cause Joint-Ease soaks right in through skin and flesh and gets right to and corrects the trouble at its source.

Remember, Joint-Ease is for ailments of the joints, whether in ankle, knee, hip, elbow, shoulder, spine or finger, and when you rub it on, you may expect speedy and gratifying results.

It is now on sale at McFall's Drug Store and druggists everywhere for 60 cents a tube.

A Successful Man

Among the notable professional men of this country who achieved great success along strictly legitimate lines was Dr. R. V. Pierce. Devoting his attention to the specialty of women's diseases, he became a recognized authority in that line.

Over fifty years ago this noted physician gave to the world a prescription which has never been equalled for the weaknesses of women. Dr. Pierce's "Pink Pills" found out what is naturally best for women's diseases. He learned it all through treating thousands of cases. The result of his studies was a medicine called Doctor Pierce's "Pink Pills." This medicine is made of vegetable growths that nature herself intended for backache, headaches, weakening pains, and for the many disorders common to women in all ages of life. Women who take this standard remedy know that in Dr. Pierce's "Pink Pills" they are getting a safe woman's tonic so good that druggists everywhere sell it in both tablet and fluid form. Send 10c to Dr. Pierce's Invalids' Dept. in Buffalo, N. Y., for trial package free. Write for true medical advice—adv.

WHY DID FIVE CHICAGO WOMEN COMMIT MURDER?

By GEORGE BRITT
CHICAGO, April 14.—"Women who shoot their men run true to type. This assertion analyzing a photograph gallery of women slayers is from Dr. James M. Fitzgerald, famous phrenologist and success adviser.

He had just completed a study of Mrs. Beulah May Annan, Titian haired beauty, who is in the county jail for shooting Harry Kalstedt during a wine party in her husband's absence.

Rounding out his examination, Dr. Fitzgerald viewed also the photographs of other Chicago women slayers: Mrs. Belle Gaertner, now awaiting trial; Sabelle Nitti childlike peasant, and Katherine Malm, bandit girl, both of whom have been convicted, and Mrs. Lucille Kavanagh, who shot her husband and was acquitted.

Feelings Control Wills
Here are the facial characteristics common to them all, according to Dr. Fitzgerald:

Broad nose and cheekbones, full chin and lips, contracted upper

frontal skull development and prominent, bulging development of the forehead just over the eyes and nose. This latter feature indicates keen perception and also accuracy in shooting. They are all of the motive-vital, the action-feeling type. Their feelings rule their will and they don't think of consequences when they act.

"They all have broad heads," says Dr. Fitzgerald. "You can put it down as a basic principle that the broad-headed animals eat the narrow-headed ones. They have the destructive, acquisitive, passionate qualities. The way for people of this type to keep out of trouble is to keep at work."

Mrs. Annan has a masculine spirit in a feminine body. She doesn't clearly understand herself, and no one was more surprised than she when she sobered up and found she had killed a man.

"She has a love of action and excitement. Experiments and experiences dominate her, while routine is irritating. Her mental development was such that she couldn't entertain herself, and it did not in-

hibit spontaneous outbursts. "Her husband couldn't satisfy her wish for excitement and her need was not a sexual craving so much as a need for constant variety.

No Fear of Consequences
"If she had been a millionaire's daughter, her temperament could have been given outlet without danger. She was simply the wrong one to have her type of personality.

"Mrs. Gaertner is the most highly developed mentally of the lot. Unless she were drunk, she never would have shot. But she loves romance and action.

"Mrs. Malm has great mental alertness and a large ego. Mrs. Kavanagh is of the same feeling-dominated type. Mrs. Nitti is the child, governed by instinct and impulse. She has powerful will but no comprehension.

"All these women are alike in having single track minds, with imperfect comprehension of consequences. They are 'show me' people, who have to experience to understand, and the jails are full of this type. Food and sexual interests make a strong ap-

deal to them. "A narrow-headed, reflective person, with the reasoning and moral centers of the upper frontal region well developed never would kill as these women did."

FEMINISM LEADS THEM TO KILL DEAN HOLDS
"Feminism" is blamed by John Henry Wigmore, dean of Northwestern University Law School, for the seemingly highly accelerated trend of Chicago women toward murder.

"Women are setting out to show they can do every thing man does," he says.

"Those who are inclined toward the good things of life are emulating men in constructive achievement. But those who would lean toward the bad now are going as far as bad men go."

Henry Barrett Chamberlin, operating director of the Chicago Crime Commission, doesn't concede an increase in the rate of crime by women. "They are just bunching their hits at this time," he declares. "Another year and the rate will be about normal."

RUHR MAGNATES DO NOT LIKE MICUM AGREEMENT

By WILLIAM E. NASH
(Copyright, 1924, by The Bee)

COLOGNE, April 16.—Glorious for the Ruhr magnates the result of the Micum negotiations certainly is not. Indeed, critics here say it is distinctly inauspicious, for after months of propaganda and protest the coal barons have turned about and agreed to the very thing they characterized as impossible before, namely renewal of the reparation accord.

To be fair, however, it is not to be forgotten that the Dawes plan changed the situation by introducing new elements considered favorable to the industrialists. Thus it is certain that if the Dawes findings are adopted the burden of deliveries in kind will be lifted from the shoulders of the Ruhr and placed on the German nation as a whole. Further, that the third end of the micum accords is in sight even though they are renewed temporarily. Further than that, the prospects of credit for financing reparations deliveries are brighter than before.

"No, we are making no concessions," said a leading French engineer to the correspondent. "As we were in November, last so we now remain."

"Concessions? No, unfortunately we were able to obtain none," said a Ruhr industrialist. "Our decision to this is based on the more or less promises. Thus we hope that the Dawes report will be adopted soon by

France and Belgium and that it will have a retroactive effect insofar as financing our coal deliveries. That will lighten the task of raising credits."

That some of the German hopes are well founded, however, the writer learns from other sources, for instance, the trust in credits is said to rest on assurances received in Berlin last Saturday that loans accruing from the Dawes report will go to the German government. It is the Reich alone, which can regulate their disposal and which can say whether or not they are to be used retroactively.

Orient and foresee commercial and industrial difficulties as an indirect result of the legislation despite the neutrality of the countries.

ROAD SENTENCE AND FINES FOR ASSAULT ON OLD MAN

(By The Associated Press.)
NEWPORT NEWS, Va., April 16.—In circuit court this afternoon the jury in the case of the three Jones charged with assaulting William Myers, an aged citizen of East Hampton, returned a verdict giving John W. Jones four months in jail and a fine of \$192; William Jones a fine of \$50, and acquitting Benjamin Jones. The latter has been deliberating from late Tuesday afternoon.

FIGHT FOR AIR BREAKING OUT IN ANOTHER DIRECTION

By FORREST WHITE
(Copyright, 1924, by The Bee)

LOS ANGELES, Cal., April 15.—There was a time not so long ago when Los Angeles was proud to be represented by a lady star of the fifth industry, or this industry of the United States the making, distribution and exhibition of motion pictures. There was a time when Hollywood was the brightest jewel in the crown of the city of the Angels.

But that was before divorce became the first industry of the fifth industry—now the fourth or the third—and when one husband to a lady star of the screen instead of five or four, or three, was considered quite sufficient. How times and customs have changed.

Take the case of Barbara La Marr, not only one of the most famous beauties of the screen, but virtually brought up in Los Angeles and brought up in the divorce courts four or five times. Just now, Barbara in all her radiant beauty and with not a husband in sight, is somewhere East of Los Angeles on a special train with members of all the chambers of commerce of Southern California and the Los Angeles chamber of commerce in particular, bearing the glad tidings of Southern California's matchless climate and opportunities to the residents of the hot and cold belts of the country.

On this train, run as a "Southern California Message of Welcome," who could better typify the warmth of climate and of welcome that awaits the newcomer in Southern California? It was a rare stroke of genius, the presence of Barbara and one of her lady friends on this train. A few years or months ago, Los Angeles would have basked in the reflected glory of Barbara's personal appearances. Not now.

flect public sentiment among all the women, goes on record as not wanting to be represented to the country by a motion picture queen, be she beautiful, or good, or be she maid, wife, widow or many times grass widow. Mark to this word, Alma Whitaker, who reflects the viewpoint of the club and society women.

"Doesn't that particular choice offer certain rather obvious opportunities to our jealous critics? Wasn't she a rather particularly notorious little girl in this city before she came to be \$150,000 a year? Weren't the recent revelations about her five marriages, brought out in a recent court trial, a bit staggering even in these days? She was rather quaintly vague about these hasty and embarrassing adventures?

"Can we help wondering whether this was an enlightening choice on the part of our ebullient chambers of commerce? Is this lady intended to be a symbolical of our particular Southern attractions? Aren't we publicly declaring that yes, sirs this is the kind of girl we admire above all women in Southern California? This is the sort of angel old we raise. This is the sort of maid we sent out when we want to bid you welcome to our cities. This is our idea of the nicest thing in petticoats we can produce.

"Actually this is a particularly tactless affront to the women of Southern California. If the men want to be represented by Barbara La Marr I'm dead sure the women don't."

FAVORITES CONTINUE WINNING AT TENNIS

PINEHURST, N. C., April 16.—The semi-final rounds were reached here today in the men's and women's singles, the women's doubles and the mixed doubles of the annual United North and South Champion Lawn Tennis Tournament and one team, S. Howard Voshell and Fred C. Briggs, reached that would in the men's doubles. No upsets marked the progress of the various divisions toward the final and championship matches scheduled for Saturday, but in more than one instance the winners had to call upon all their resources to pull through.

Pile Sufferers

Can You Answer These Questions?
Do you know why ointments do not give you quick and lasting relief?
Why cutting and operations fail?
Why do you know the cause of piles is internal?

That there is a stagnation of blood in the lower bowel?
Do you know that there is a harmless remedy discovered by Dr. Leonard and known as HEM-ROID, now sold by Patterson Drug Company and druggists generally, that is guaranteed?

HEM-ROID banishes piles by removing the cause, by freeing blood circulation in the lower bowel. This simple home treatment has an almost unbelievable record for sure, safe and lasting relief to thousands of pile sick sufferers. There is no reason why it should not do the same for you.—adv.

CONVENTION STRONGLY ENDORSE COOLIDGE

(By The Associated Press.)
NEW YORK, April 16.—Delegates to the Republican state convention today unanimously tuned in on the keynote struck by Secretary of State Hughes last night and burst into the 1924 campaign with a program of national issues and a strong endorsement of the Coolidge administration.

Seven delegates-at-large and seven alternates to the Cleveland convention were elected without instructions.

The unanimity with which President Coolidge and his works were endorsed left no room for doubt, however, that the New York state vote was to be solidly for the president.

The platform might almost have been an abstract of Secretary Hughes' address.

Five women were among the elected delegates-at-large and alternates.

Louise M. Fairweather, of Brooklyn, a negroes, was one of the latter. She is the first woman of her race to be sent from this state to a national convention in such capacity.

ALLEGED NORTH CAROLINA COUNTERFEITER ARRESTED

(By The Associated Press.)
RICHMOND, Va., April 16.—Robert Williams, who said his home was at Colon, North Carolina, was arrested here today by Richmond police on a charge of having counterfeit money in his possession and selling liquor. Thirteen spurious half dollar bills were found in his pockets when he was searched at police headquarters. More than a gallon of corn whiskey was found in a room he rented here. The police declared they had been on the lookout for Williams for several weeks, and that they believe the plant with which the money was made is located in or near Colon. They said the man made frequent trips to Richmond where he disposed of the coins. The design on the coins is perfect, the authorities stated, but the metal is a poor grade alloy.

Reduce Your Fat Without Dieting

Years ago the formula for fat reduction was "diet"—exercise. Today it is "Take Marmola Prescription Tablets." Friends tell friends, these friends tell others. They eat substantial food, live as they like and still reduce steadily and easily without going through long sieges of tireless exercise and starvation diet. Marmola Prescription Tablets are sold by all druggists the world over at one dollar for a box or if you prefer you can order direct from the Marmola Co., 4612 Woodward Ave., Detroit, Mich.

Cubs Defeat Cardinals; Recruit Wins For Tigers

HOME RUNS NUMEROUS IN BIG SHOW DURING YESTERDAY'S GAMES

All Victors of Opening Day, Except Detroit, Defeated—Stengel Hit Homer and Wins for Boston, Breaking up Two-Day Tie With Philadelphia.

(By The Associated Press.) NEW YORK, April 17.—All victors of the major league opening day were defeated yesterday except Detroit, which jumped to the American League lead by winning, over Cleveland, 5 to 3. A home run by Casey Stengel in the tenth inning broke up a two-day tie between Boston and Philadelphia and placed the Braves at the head of the National pack. The score was 4 to 3.

Home runs were numerous. Frankie Frisch and Billy Southworth connected with Burtleigh Grimes' splitter for circuit blows in the Giant for reveal which downed Brooklyn 7 to 1. On the other hand, the Red Sox won their opening day crowd returned for the second game. Carlson, a Philly pitcher, Hartnett, of the Cubs, L. Bell of the Cardinal and Harry Heilmann, of the Tigers, were the other four base swatters.

Wilbur Cooper pitched Pittsburgh to a 1 to 0 victory over Cincinnati in the best played game of the day. Only one Red reached second base, but six double plays helped to sweep runners from the sacks.

Jack Bentley held the Dodgers hitless until the seventh, after which he allowed four blows. The veteran Jack Quinn gave Yankee batters only six hits in the Red Sox 9 to 6 victory which witnessed flash fielding by Young Dudley Lee, Red Sox shortstop.

While his teammates wallowed four St. Louis pitchers for 17 hits, Grover Alexander coasted in with a 13 to 4 Cub victory. Rommel twirled a five hit contest for Connie Mack's young Athletics who drove the veteran Hoagridge from the mound in the first frame and beat Washington, 6 to 1.

George Siler's batting and fielding again featured the St. Louis-Chicago battle in the third frame, but a single by Eddie Collins brought Hooper home with a 3 to 2 White Sox victory in the tenth inning.

Earl Whitehill, Detroit recruit southpaw, knocked Joe Sewell, lead hitter with a thorn ball and hit, out of other batters while defeating Cleveland. Sewell finished the game.

THAW ON THE STAND ONLY FIVE MINUTES

Testifies For Brief Period in Own Behalf in Sanity Trial.

(By The Associated Press.) PHILADELPHIA, April 17.—Harry K. Thaw, flushed and confident, testified for a brief period in his own behalf in his sanity trial today. Then his lawyers dramatically turned him over to the other side for cross examination.

Thaw seemed self possessed. Former Judge John M. Patterson, his counsel, asked Thaw only five questions. Seemingly, the attorneys for the opposition were greatly surprised when he was turned over to them so quickly. Arthur C. Dickson, counsel for the trustees of the Thaw estate and William A. Gray, representing Evelyn Nesbit, Thaw's divorced wife, whose thirteen-year-old son has intervened in his own behalf, discussed the case with the alibi supporting their side in low tones and with great earnestness.

At the end of five minutes, Mr. Dickson said: "We have no questions to ask."

Thaw smiled and left the witness stand.

Another brief conference followed among the attorneys for Thaw.

They were not prepared for the immunity granted the client and asked for a recess until this afternoon which was granted.

MRS. THAW AND EVELYN NESBIT AT GRIPS AGAIN

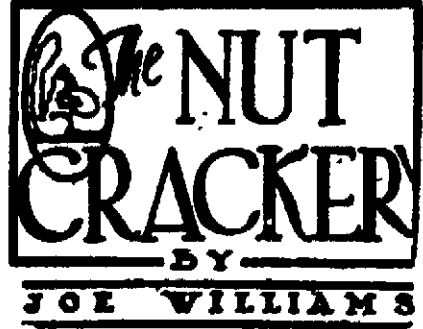

By ROBERT T. SMALL (Copyright, 1924 by The Bee) PHILADELPHIA, April 17.—They have come to grips again—the two women in the case. And anyone conversant with the life history of Harry Kendall Thaw must wonder as to which is his better friend, the painted lady of the cabarets who was once his wife, or the devoted, haughty, proud old mother who is willing that he shall go forth in the world again, perhaps eventually to meet the fate which money so long has shielded him from.

The painted lady would like to keep Thaw in the asylum. Once she saved him from the electric chair. Perhaps today she regrets the sacrifices she made to that end. She fears that he may yet do her some bodily harm. She seeks to get some of the Thaw money for her son—the son which Thaw denies.

Mrs. Mary Conley Thaw, the mother, is aged and decrepit. Mostly she walks with a cane. The grief of eighteen long years, however, has not bowed her head. And anyone who has not met one of her off-spring under the stigma of insanity, she brushes aside the fact that it was her own petition which put Thaw in his present asylum. That was when the law was asked him when he had cruelly beaten a young boy in a New York hotel and a long stretch up the river awaited him. Preferably the asylum to the felon's cell. It is this Thaw complex that Harry is insane when he commits a crime. He is sane as soon as the family feels the crime is forgotten.

The necessary expert testimony to prove this theory always seems to be at hand.

Evelyn Nesbit is today as she was in 1917 and 1918, the alluring figure in the Thaw case. But what a far different Evelyn today. There is no longer any mystery—a look of girlish wonderment in those big dark eyes which were so liquid and dreamy. They are lackluster eyes today, dimmed with tear-bought wisdom, the

After a long conference with the king the Prince of Wales announced his retirement from the saddle.—New Note.

George (cleaning his royal throat): This bally business of horseback riding, young man, it must stop.

Wales (rubbing his left hip ominously): I hope you aren't trying to flatter me.

George: It is high time you took a tumble to yourself.

Wales (protestingly): But dad, that last tumble I took at Leicester square was perfectly ripping. Indeed, I dare say I have done a better one.

George (heatedly): Oh, pshaw!

Wales: Why bring these nosey writers into the discussion?

George: You don't seem to realize how my subjects are kicking.

Wales: Tut, tut! Don't mind the kicking. It's the throwing that gets you.

George (earnestly): Do you prefer the saddle to the throne?

Wales: Goodie! Let's tell our drums. Now what is it that is red on the outside, black on the inside and goes hark, hark?

George (barely missing the princely peak with his short, choppy left hook): What I must upon knowing is this: Will you give up the horses or must I take them from you?

Wales: That would be a change from taking them off me, wouldn't it?

George (reading communication from exalted ruler of the Elks of British East Africa): "Understand prince has been thrown again. Please confirm whether he was out with American girl or steeple chasing."

Wales (resignedly): Well, whaddya want me to do?

George: Give up these perilous sports and go in for something less hazardous.

Wales (with regal finality): Very well, I shall get married.

George (explosively): Er, hum, well, perhaps, er, maybe you could find a tamer horse. Wot?

Evelyn Nesbit was a lonely little figure at the first Thaw trials. She sat with the family, but they tolerated her with ill grace.

She was the only human factor which could save the scion of a proud Pittsburgh family from being "burnt-up the river." From the fate of the common murderer. During the trial, great interest was read around the world as no other murder cases ever have been. Evelyn, who still calls herself as if the first syllable was spelled "Eva," stuck to the ship, stuck to the most dramatic story of a girl's ruin which ever has been told in court. It was a confession, which should have been heard only in some cloister. But it was given to the world that Harry Thaw might not die in the chair for an act of mad jealousy, the playacting of Stanford White that summer night on the Madison Square roof.

Evelyn claims that after she had paid and paid and paid at the Thaw, she was cast aside by Thaw as a common prostitute. They gave her no money. They thought they needed her no longer. And so today Evelyn sits again a lonely figure in the vault-like courtroom where Thaw money is fought again for the Thaw liberty. As one looks at the mature woman who was once the 16-year-old sweetheart of the great architect, there rush back the memories of the room of the mirrors the forenoon of the velvet swing her higher and higher until at last she could kick her pointed toes through a Japanese parasol attached to the ceiling, the great room where the parties were given for the rich young men about town and the chorus girls and Evelyn emerged one night from a papier mache pie a glorious throbbing young creature, an artist's study in the nude.

Laura Jean Libbey in her palmist days never thought of such a plot or such a story as came rippling from the lips of Evelyn Thaw on the witness stand. Evelyn still was innocent in these days, despite her experience at the hands of Stanford White, despite her experience abroad with Harry Thaw, the nights at the "Dead End" in Paris, the night of the world known night of absinthe intoxication if not innocent, at least she wore the mask of innocence and it was intensely becoming.

But much water has flowed under the bridge since then. Evelyn has been married. Like Harry Thaw himself, she has once attempted to end her life. At another time the body of a lifeless girl found in the Potomac River was thought to be hers. But Evelyn still was innocent in these days, despite her experience at the hands of Stanford White, despite her experience abroad with Harry Thaw, the nights at the "Dead End" in Paris, the night of the world known night of absinthe intoxication if not innocent, at least she wore the mask of innocence and it was intensely becoming.

Rival For Dempsey's Title

FRED ROBERTS

Now we have the educated fighter seeking the crown of Champion Jack Dempsey.

'Impossible' You say. Nothing of the kind.

The latest aspirant to the title of Champion Jack is none other than Fred Roberts, star "rah-rah" athlete of Oglethorpe College, Georgia.

Roberts is noted for its crop of star athletes, including Ty Cobb, the "Georgia Peach," Young Stribling, the youthful fistic sensation, and now comes Fred Roberts, the "Georgia Giant."

Roberts is only 5 feet 4 inches, weighs 230 pounds in the proverbial pink and is rarin' to go.

During his college days he won fame as a shot putter, hammer thrower and strong man.

However, his greatest athletic feats were probably performed on the gridiron. Many of the southern critics rate him as one of the greatest football players ever produced below the Mason and Dixon line.

In his days at Oglethorpe Roberts was a marked man in every game he played. "Get Roberts" was the slogan of the opposition. Despite this he never was taken out of a game because of injuries.

Walker, Atlanta is championing Roberts in the best of ring society and feels that his protégé has a great chance to succeed in the ring since his gridiron record shows 11 football rivals never made him take the canvas.

Roberts is to be groomed carefully. The soft spots will be picked for him until ring experience fits him to take on the heavyweights of the better class.

Will Christen Fourth Speed Cruiser Today

(By The Associated Press.) PHILADELPHIA, April 17.—The fourth of five light cruisers of tremendous speed, built or under construction at Cramps Shipyards for the United States Navy will be christened "Nimitz" today by five-year-old Elizabeth Rowlett Paine daughter of the mayor of Memphis, Tenn., at launching exercises today.

The Memphis combines the duties of scout cruiser, fleet leader, mine layer and airplane carrier. Its main turbines are designed to develop 100,000 horsepower and a speed of 35 knots an hour. Twelve great watertube boilers, burning oil, will supply steam for the turbines, which are among the most powerful ever built.

Final Tryouts to Begin Soon

(By The Associated Press.) NEW YORK, April 17.—Final tryouts to determine America's representatives in 1924 different classes of Olympic competition will be held from May 2nd until June 14th in various parts of the country, according to a revised list made public today by the American Olympic committee.

Eight are scheduled in New York, two in Boston and Paul Perdue, a Detroit Quantic, Virginia and Indianapolis, while the modern pentathlon will be held both at West Point and New York. Shooting events will be held at Quantico, May 14th and 15th.

Bout Between Berlenbach and Stribling Sure

(By The Associated Press.) NEW YORK, April 17.—The proposed six round battle between Young Stribling, Georgia light heavyweight, who recently outpointed Mike Metzger, the world's champion in a non-decision bout and Paul Perdue, a knockout sensation of the indoor season, will bring together the two most colorful young fighters of the ring.

Contracts have not been signed but it is understood both have agreed to the meeting at the annual mid-winter benefit to be held here in June, probably between the 25th and 26th.

WEATHER FORECAST

(By The Associated Press.) WASHINGTON, April 17.—Virginia: Showers tonight and Friday; somewhat warmer tonight and in east portion Friday.

North Carolina: Showers tonight and Friday; warmer tonight except in extreme southeast portion; cooler in extreme west portion Friday.

WOULD GIVE PEOPLE POWER TO AMEND CONSTITUTION

(By The Associated Press.) WASHINGTON, April 17.—Congress would have power by a majority vote of both Houses, to call a convention for the purpose of amending the constitution under an amendment to the constitution, prepared today by Representative Berger, Socialist, Wisconsin.

The present constitution, he said, "was designed by the money men" and "a new constitution is required" to enable people to rule themselves and suitable to present day needs.

Golf is becoming very popular with the rank and file of the British army.

The Street Cars lost from \$60 to \$100 per day on the 3c fare, which means twenty to thirty thousand dollars per year.

VIRGINIA LEAGUE CLUBS GET INTO ACTION TODAY

(By The Associated Press.) RICHMOND, April 17.—Cloudy weather early today, somewhat dampened the enthusiasm of Richmond's baseball fraternity for the opening this afternoon of the 1924 Virginia League season. The weather, however, saw little chance of rain before game time and despite the coolness of the air and the low hanging clouds indications were a record crowd would be in attendance when the first ball is tossed across the plate. The Colts will meet the Petersburg Goobers in the curtain raiser.

Manager Jack Onslow, of the Richmond club, was undecided this morning as to whether he would send "Minnie" Manning, the league's leading hurler last year, or Ered Newberry, recently obtained from the New York Yankees, to the mound. Both have shown up well in exhibition games. Onslow will catch Hal Weaver, who will play first base, second, Murphy shortstop, Aragon third base, Malone rightfield, Ramos, center field and Honig leftfield.

Manager Ed Konetchy of the Goobers, expected to start Smith or Bonifay, will pitch, with the odds favoring the former because of the cool weather. It is warm this afternoon Bonifay will get the call. Manchester will do the relieving.

The remainder of the lineup has been announced as follows: Gray 2b; Silverman 3b; Weeks cf; Conley of; Konetchy 1b; Stalker lf; Marable 3b.

NORFOLK PLAYS PORTSMOUTH

(By The Associated Press.) NORFOLK, April 17.—With both clubs, presenting practically brand new lineups, Norfolk and Portsmouth are ready to do the honors this afternoon at the christening of Portsmouth's new baseball park.

Fans of the win cities are inclined to favor Eddie Goosetree's Truckers, as they have demonstrated their ability to hit hard and often. The Norfolk club is composed of fast youngsters who play a brilliant defensive game but are weak with their willows.

Johnny Jones and Funk have been selected as Norfolk's battery while Taylor Jolly and Pond will officiate for Portsmouth.

PETERSBURG VS. RICHMOND

(By The Associated Press.) PETERSBURG, April 17.—With one of the best teams that has represented Petersburg in many years, Manager Ed Konetchy, shortly before leaving for Richmond for the initial hostilities of the season, represented himself as being well pleased with the outlook for a successful season.

He announced that either Smith or Bonifay will pitch, with the odds favoring the former because of the cool weather. It is warm this afternoon Bonifay will get the call. Manchester will do the relieving.

The remainder of the lineup has been announced as follows: Gray 2b; Silverman 3b; Weeks cf; Conley of; Konetchy 1b; Stalker lf; Marable 3b.

For the Game's Sake

By LAWRENCE PERRY

(Copyright, 1924, by The Bee) NEW YORK, April 17.—Glenn Warner is now at work conducting spring football practice at Leland Stanford University. Warner has done nothing startling at Palo Alto in the way of preparing his men for the autumn football season. Fundamentals have been the rule. Nonetheless, word has leaked eastward that Warner thinks highly of his material and believes that the Stanford team has better than an even chance to beat California next fall.

California's last opinion is entitled to respect and often the writer that in addition to Warner's skilled ministrations, Stanford will have available pretty nearly all the players who made a pretty fine showing against all opponents last year while the Bears will have to work up a lot of new material to replace last season's graduates.

The Massachusetts Golf Association has formed a formal petition with the United States Golf Association requesting that the age limit of caddies from 16 to 17 years of age. The large number of requests for reinstatement of caddies received by the amateur status and conduct committee it would seem as though the rule that caddies may not carry clubs after they are 16 years old were a new one, whereas it is one of the oldest rulings defining an amateur golfer.

Rowing is the great major sport at the University of Washington. It is approached in popular favor with students and alumni by football only. Two years of intercollegiate rowing champions has had something to do with it, a great deal probably, but the fact remains that with a fine body of water for rowing in near proximity to the university and mild northern climate which enables the men to turn out in all seasons, the aquatic idea has unequalled opportunities for development.

As showing the supremacy of the Huskies on the water, it might be set

(Copyright, 1924, by The Bee) NEW YORK, April 17.—Glenn Warner is now at work conducting spring football practice at Leland Stanford University. Warner has done nothing startling at Palo Alto in the way of preparing his men for the autumn football season. Fundamentals have been the rule. Nonetheless, word has leaked eastward that Warner thinks highly of his material and believes that the Stanford team has better than an even chance to beat California next fall.

California's last opinion is entitled to respect and often the writer that in addition to Warner's skilled ministrations, Stanford will have available pretty nearly all the players who made a pretty fine showing against all opponents last year while the Bears will have to work up a lot of new material to replace last season's graduates.

The Massachusetts Golf Association has formed a formal petition with the United States Golf Association requesting that the age limit of caddies from 16 to 17 years of age. The large number of requests for reinstatement of caddies received by the amateur status and conduct committee it would seem as though the rule that caddies may not carry clubs after they are 16 years old were a new one, whereas it is one of the oldest rulings defining an amateur golfer.

LEGAL NOTICES

NOTICE.
By virtue of an in execution of a certain deed of trust dated the 8th day of August, 1922, from Charles H. Gunter and Leland W. Gunter, his wife, to Malcolm K. Harris, and thirty, which said deed is recorded in the Clerk's Office of the Corporation Court of Danville, Virginia, in Deed Book 117, page 212, default having been made in the payment of the debt therein secured, and upon the request of the beneficiary, I shall, on
MONDAY, APRIL 21, 1924
At 10 o'clock A. M.
sell at public auction, at the front door of the Court House, Danville, Virginia, to the highest bidder, the following described real estate situate in the City of Danville, Virginia, and more particularly described as follows:

Lying on the north side of Stokes street (formerly Battery Street) cornering with its intersection of an alley, fronting on Stokes Street thirty-two (32) feet and running back therefrom between said alley and a line parallel therewith one hundred and thirty (130) feet to another alley in the rear, and being the western part of lots Nos. 4, 5 and 6 in Block No. 4 on map of Danville Land Company's property, recorded in the Clerk's Office of the Corporation Court of Danville, Virginia, in Deed Book 38, page 336, and being the same property conveyed to C. H. Gunter by T. C. Mize and wife by deed dated July 22, 1922 and recorded in Deed Book 117, page 75. Clerk's Office aforesaid.

TERMS: Cash.
MALCOLM K. HARRIS, Trustee.
4-16-101.

ORDER PUBLICATION.

Issued by order of the Clerk of the Corporation Court of Danville, entered on the 26th day of March, 1924.
VIRGINIA.
In the Clerk's Office of the Corporation Court of Danville, on the 26th day of March, 1924.
Marinda Stokes, Plaintiff
against
James Stokes, or Stokes, Defendant
IN CHANCERY.

The object of this suit is to obtain from the said Court a decree divorcing the plaintiff, Marinda Stokes, a vinculo matrimonii from the said defendant, James Stokes, or Stokes, on the grounds of abandonment and desertion.
And an affidavit having been made and duly filed that the said defendant, James Stokes, or Stokes, is a non-resident of the State of Virginia, it is therefore ordered that he do appear herein within ten days after due publication of this order once a week for four successive weeks in The Bee, a newspaper published in the City of Danville, Virginia, and do what is necessary to protect his interest in this suit.

SECOND BAPTIST ALL WENT TO PRAYER MEETING

The Second Baptist church continues to show remarkable results in point of attendance at its mid-week prayer services. According to last night's report, 495 persons were present, contrasted with 359 a week before. This is probably a record for attendance at Wednesday evening services at any church in Danville.

EVEREST FILMS

LONDON, April 17.—Elaborate preparations have been made to take motion pictures of the third expedition to climb Mt. Everest, which is soon leaving this country. The film camera is to be concentrated in one box and carried by a mule. When lofty heights are reached a small camera operated by lockwork will be used.

Honesty

THE only honest transaction is one in which both parties profits. This bank exists for your profit as well as its own. We make money with you, not out of you. Let us join hands.

First National Bank
OF DANVILLE, VA.

Erect and Decorate in a Jiffy

Speed up your new building—or remodeling job—by using Sheetrock, the fireproof wallboard. A standard building material—in broad, ceiling-high sheets ready to nail to joists or studs. Makes enduring walls and ceilings that can be immediately decorated. No waiting for walls to dry—no danger of freezing. Nothing better for winter building; dependable and economical at all seasons.
